

Get Instant Answers Anywhere

ThoughtSpot Mobile

Get insights in seconds out of billions of rows of data right from the palm of your hand on your phone or tablet. Access your data from any source to make smarter decisions faster when you need them the most.

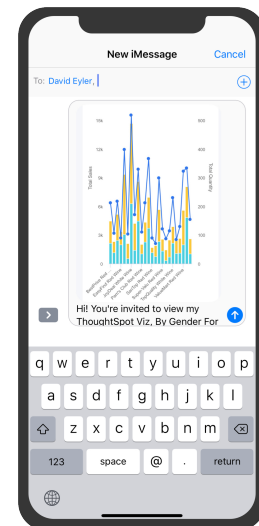

Get Insights on the Spot

Create and explore pinboards for instant answers on the go

Tap to drill anywhere with interactive dashboards

Share insights with anyone in your organization

Follow your business right from your phone. Access data whether it's on-premises or in the cloud to get granular insights – on the go.

Key Features

Home Pinboard	Add crucial KPI's, charts, and tables on a fully customizable "Home Pinboard" that is accessible with one tap.
On-the-go Pinboard Creation	Pin your favorite answers to create new Pinboards without leaving the app.
Responsive & Interactive Experience	Tap and swipe to see chart details. Filter and sort to pinpoint the most relevant insight.
Favorites	Tag important and frequently used Pinboards and Answers for quick access.
Quick Share	Share KPIs and charts via email/Slack/iMessage with one tap to start a discussion with your colleagues.
Offline Exploration	Access your home Pinboard even when you are offline.
Mobile Device Management (MDM) Support	Enterprise-grade security with support for all major MDM services, including AirWatch, Mobile Iron, Intune, Meraki, and more.
AppConfig Compliant	Conforms with industry standard AppConfig for easy setup to drive end user adoption in the enterprise.

Requirements: ThoughtSpot 5.1 or later, iOS 9.0 or later devices, Android 6.0 or later

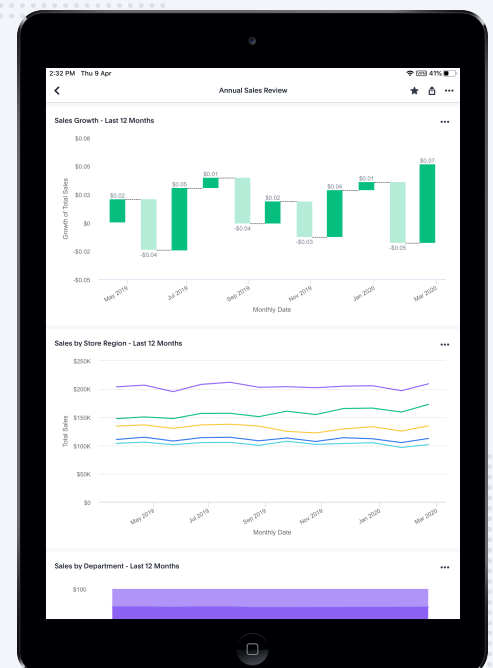

USE CASE EXAMPLE

Fortune 100 Subsidiary Minimizes Shrinkage with ThoughtSpot Mobile

A Fortune 100 Subsidiary uses ThoughtSpot Mobile to enable their Market Asset Protection Managers (MAPMs) to discover the root causes of and minimize possible shrinkage.

MAPMs regularly tour their assigned stores to investigate shrinkage, pulling up Pinboards with a store filter to see information about individual stores. Mobile analytics empower them to get answers to pertinent questions in the moment for the first time.

With the ability to update data as often as hourly, MAPM's can now immediately take corrective actions at their respective stores when then find inconsistencies that may lead to shrinkage. This includes situations where items have not been rung up by cashiers, incorrect tagging of item prices, and improper return processing.

// What we're really finding with this app, is we have more productivity and job satisfaction for our Retail Marketing Associates."

KAREN RAMBO,
VICE PRESIDENT - RETAIL
MARKETING AND OPERATIONS,
HAGGAR CLOTHING CO.

// This technology has enabled me to share real-time information with store management and make informed decisions to help increase retail sales within my territory."

JODY B.,
RETAIL MARKETING DIRECTOR,
HAGGAR CLOTHING CO.
